2. Ethics & compliance consulting services:

We advise organizations on how to set up and/or improve their ethics and compliance program and framework. This includes conducting compliance risk assessments, establishing or improving policies and procedures, compliance monitoring and reporting, whistleblowing systems, the governance of compliance and assistance in discussions with the authorities or other stakeholders.

3. Ethics and compliance interim management

We are available to help you solve compliance problems. We manage compliance projects and fulfil temporary compliance positions.
